

EDUCATIONAL LIVING CENTER: Housing Plans

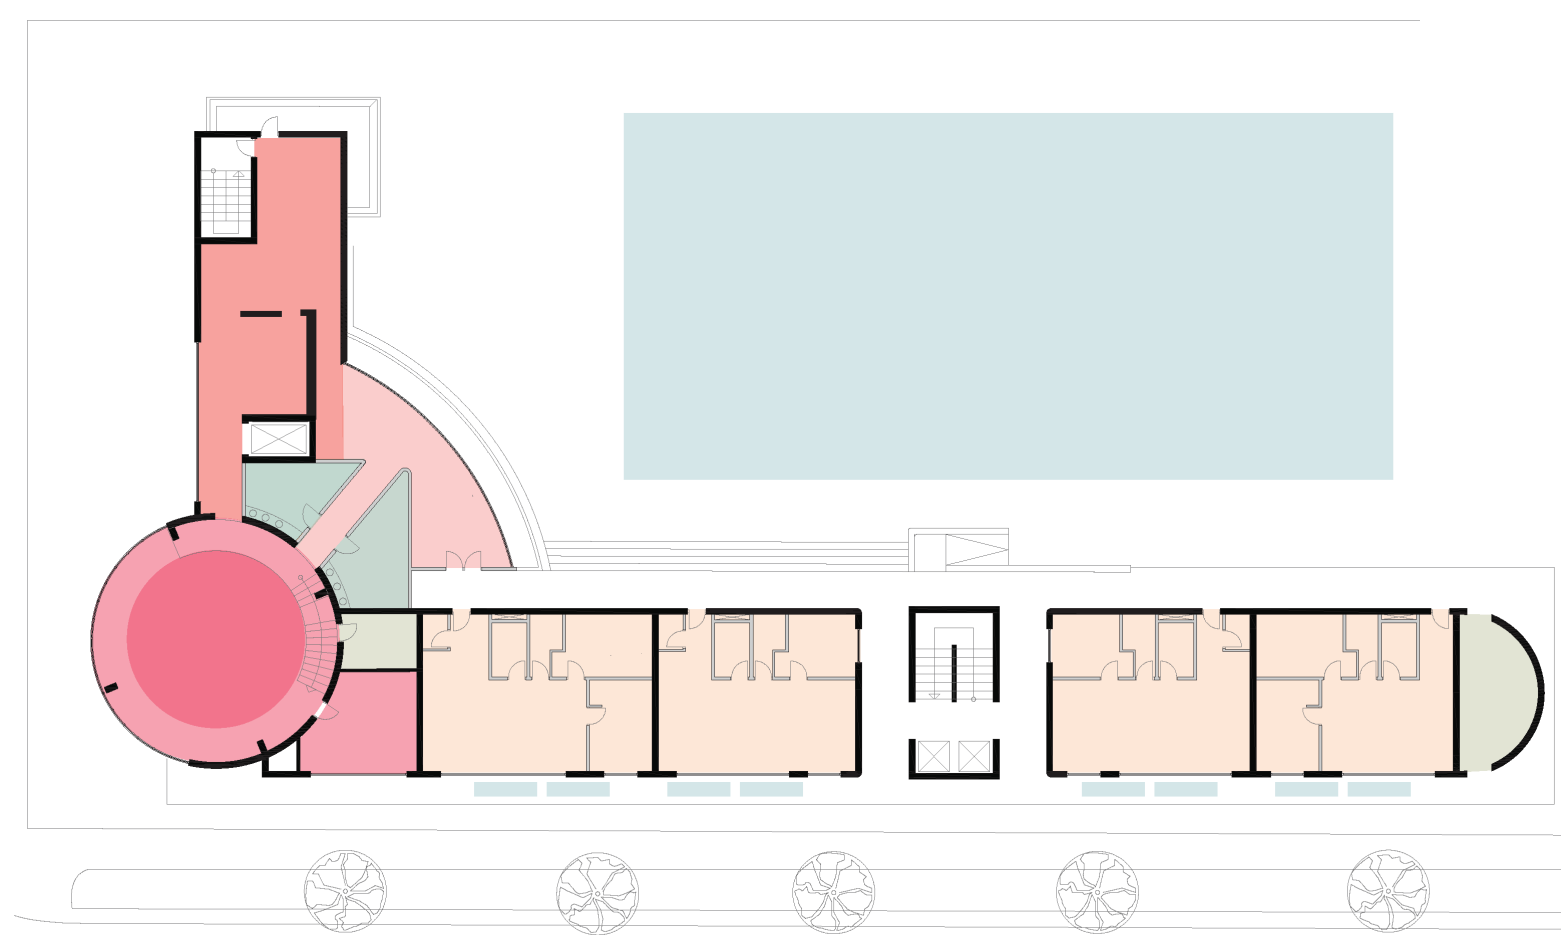

Aiyana Marrow, Evette Eaton, Min Ho Choi, Paris Beasley, Suhaila El Banna, Victor Martinez

PROJECT FEATURES

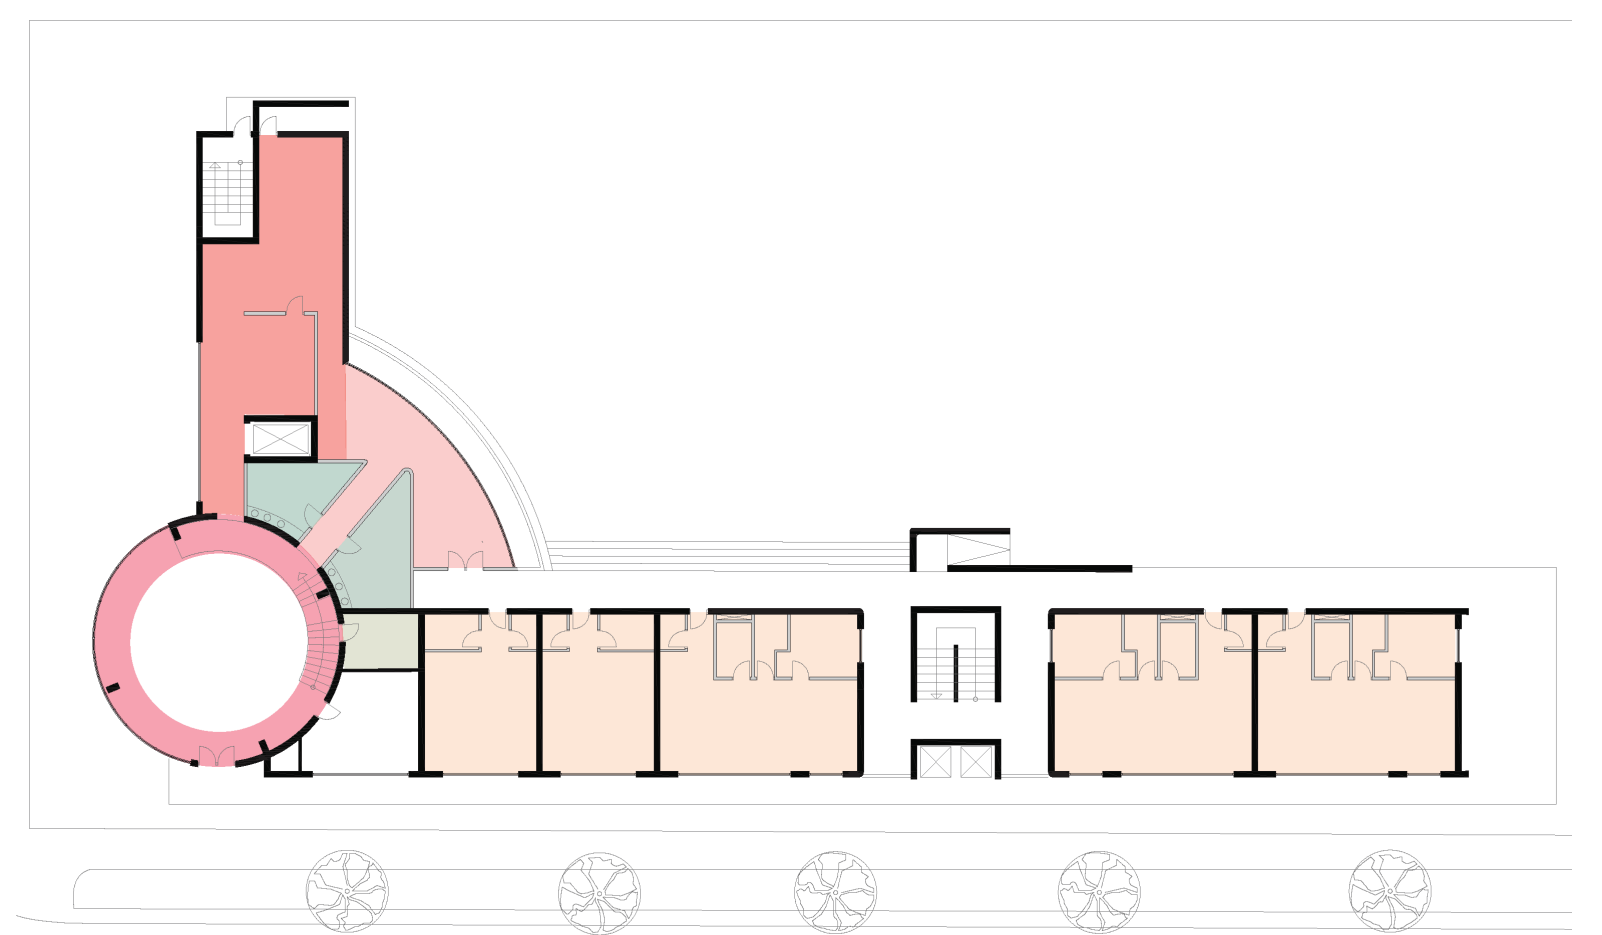

It may be difficult for young adults to develop the skills necessary to live independently, and to find affordable housing. The ELC program advances the skills of participants in its approach. The first year program develops social skills, with an emphasis on collective and cooperative living, and work, and the 2-bedroom housing units providing experience living with roommates. In the second and third years being housed in one-bedroom units offers participants experiences with maintaining independent dwellings.
